

Author Index

Volume 40 (2012)

| | |
|---|-----|
| Cung The Anh, Dao Trong Quyet: g -Navier-Stokes equations with infinite delays | 57 |
| Truong Q. Bao, Dinh The Luc, Boris S. Mordukhovich: Preface: Phan Quoc Khanh, special issue on optimization and variational analysis honoring his 65th birthday | 127 |
| Truong Q. Bao, Boris S. Mordukhovich: To dual-space theory of set-valued optimization | 131 |
| Ewa M. Bednarczuk, Alexander Y. Kruger: Error bounds for vector-valued functions on metric spaces | 165 |
| Lucidio dos Anjos Formiga Cabral: see Roberto Quirino do Nascimento | |
| Ying Ying Chen, Chao Kan, Wen Song: The Moreau envelope function and proximal mapping with respect to the Bregman distances in Banach spaces | 181 |
| Chih-Sheng Chuang: see Lai-Jiu Lin | |
| Nguyen Huu Cong, Nguyen Thu Thuy: Stability of two-step-by-two-step IRK methods based on Gauss-Legendre collocation points and an application | 115 |
| Namita Das, Srinibas Sahoo: A generalization of Hardy-Hilbert's inequality with multi-parameter | 31 |
| Anulekha Dhara, Dinh The Luc, Phan Nhat Tinh: On second-order conditions for nonsmooth problems with constraints | 201 |
| Nguyen Dinh, Tran Hong Mo: Qualification conditions and Farkas-type results for systems involving composite functions | 407 |
| Joydeep Dutta: Gap functions and error bounds for variational and generalized variational inequalities | 231 |

- Ali Akbar Estaji:** see Ebrahim Hashemi
- Hu Chang Fa:** see Wang Li
- Nguyen Thi Thanh Ha:** see Do Hong Tan
- Ebrahim Hashemi, Ali Akbar Estaji:** On polynomials over abelian rings 47
- Pham Gia Hung, Le Dung Muu:** On inexact Tikhonov and proximal point regularization methods for pseudomonotone equilibrium problems..... 255
- Monika Jaiswal:** see Shashi Kant Mishra
- Chao Kan:** see Ying Ying Chen
- Young Min Kang, Do Sang Kim, Moon Hee Kim:** Optimality conditions of the G -type in locally Lipschitz multiobjective programming 275
- Akhtar A. Khan, Christiane Tammer:** Generalized Dubovitskii-Milyutin approach in set-valued optimization 285
- Do Sang Kim:** see Young Min Kang
- Moon Hee Kim:** see Young Min Kang
- Alexander Y. Kruger:** see Ewa M. Bednarczuk
- Alexander Y. Kruger:** see Huynh Van Ngai
- Daishi Kuroiwa, Gue Myung Lee:** On robust multiobjective optimization 305
- Abhijit Lahiri:** see Nantu Sarkar
- Gue Myung Lee:** see Daishi Kuroiwa
- Wang Li, Hu Chang Fa:** Notes on n -strongly Gorenstein projective, injective and flat modules 439
- Lai-Jiu Lin, Chih-Sheng Chuang:** An iteration method for finding the unique solution of a variational inequality problem constrained by the intersection of the sets of fixed points of a countable family of nonexpansive mappings in Hilbert spaces 319
- Zheng Liu:** Some inequalities for differentiable functions and applications 505
- Feng Lü, Jianming Qi:** Uniqueness of meromorphic functions sharing rational functions with their first derivatives..... 1
- Dinh The Luc:** see Truong Q. Bao
- Dinh The Luc:** see Anulekha Dhara
- Ana Flavia U. S. Macambira:** see Roberto Quirino do Nascimento
- Nelson Maculan:** see Roberto Quirino do Nascimento

|---|-----|
| Shashi Kant Mishra, Monika Jaiswal: Optimality conditions and duality for nondifferentiable multiobjective semi-infinite programming | 331 |
| Tran Hong Mo: see Nguyen Dinh | |
| Boris S. Mordukhovich: see Truong Q. Bao | |
| Ahmadjan Muhammadhaji, Zhidong Teng: Positive periodic solutions of n -species Lotka-Volterra cooperative systems with delays .. | 453 |
| Le Dung Muu: see Pham Gia Hung | |
| Roberto Quirino do Nascimento, Ana Flavia U.S. Macambira, Lucidio dos Anjos Formiga Cabral, Nelson Maculan: A model to the ellipsoidal filling problem | 345 |
| Huynh Van Ngai, Alexander Y. Kruger, Michel Théra: Slopes of multifunctions and extensions of metric regularity | 355 |
| Van Hien Nguyen: see Jean Jacques Strodiot | |
| Yashashree S. Pawar: see Janardan D. Yadav | |
| Vu Ngoc Phat: see Mai Viet Thuan | |
| Jianming Qi: see Feng Lü | |
| Dao Trong Quyet: see Cung The Anh | |
| Omid RabieiMotlagh: A “ $SE(QF)(IH)R$ ” approach to the introducing new “pandemic threshold” and “pandemic estimator” parameters for an infectious disease | 469 |
| Srinibas Sahoo: see Namita Das | |
| Nantu Sarkar, Abhijit Lahiri: Eigenvalue approach to two-temperature magneto-thermoelasticity | 13 |
| Wen Song: see Ying Ying Chen | |
| Jean Jacques Strodiot, Van Hien Nguyen, Phan Tu Vuong: Strong convergence of two hybrid extragradient methods for solving equilibrium and fixed point problems | 371 |
| Christiane Tammer: see Akhtar A. Khan | |
| Do Hong Tan, Nguyen Thi Thanh Ha: Nadler’s fixed point theorem in cone metric spaces | 447 |
| Zhidong Teng: see Ahmadjan Muhammadhaji | |
| Michel Théra: see Huynh Van Ngai | |
| Duong Viet Thong: Viscosity approximation method for Lipschitzian pseudocontraction semigroups in Banach spaces | 515 |
| Mai Viet Thuan, Vu Ngoc Phat: New criteria for stability and stabilization of neural networks with mixed interval time-varying delays | 79 |

- Nguyen Thu Thuy:** see Nguyen Huu Cong
- Phan Nhat Tinh:** see Anulekha Dhara
- Hoang Tuy:** Topological minimax theorems: old and new 391
- Phan Tu Vuong:** see Jean Jacques Strodiot
- Zhanping Wang:** Remarks on rings with zero products commuting and zero insertion properties 107
- Janardan D. Yadav, Yashashree S. Pawar:** Intuitionistic Q -fuzzy ideals of near-rings 95
- Naser Zamani:** On the regularity of generalized local cohomology 497
